CUMULATIVE EDITORIAL INDEX

Including January 1967 through June 1967. Number preceding hyphen is month of issue; those following are page numbers.
AUTOMATION *is indexed in the Applied Science & Technology Index and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 313 N. First St., Ann Arbor, Mich.*

A

Adams, J. J.
Arbitration and the Right to Automate, 1-62

Adams, W. J.
Applying Linear Induction Motors, 6-74

Aidlin, S. S. and Aidlin, S. H.
Pricing and Paying Policies, 4-98

Ainslie, T. C.
Computer-Controlled Manufacturing Line, 1-66

Air pollution, 3-12*

Alarm message system, 1-31*

Altland, G.
Creating Basic Motions Hydraulically—Part 1, 5-77

Analog digital devices, 3-79

Applying index tables, 2-81

Arbitration, labor contract, 1-62

Area determination, prob., 4-4*; 5-4*

Aronson, T. F.
Dispensing Dry Materials Accurately, 3-84

Assembly
body bolt, 1-44*
continuous systems, 4-12*
designing modular equipment, 4-77
electronic, prob., 2-4*
ferris wheel storage unit, 4-12*
machine specifications, 4-84
sealant application, prob., 6-4*

Auger fillers, 3-84

Auto safety standards, 5-8*

Automated
plant, 5-9*
production systems, 3-70

Automatic
heating techniques, 6-93
warehousing system, prob., 1-4*

Automation
adjusting to technological change, 2-178*
philosophy, 1-10*
understanding its significance, 3-174*
weighing, 1-86

B

Baking, roll, 6-12*

Bearings, multi-motion, 1-39*

Belt conveyors, loading and discharging, 3-96

Blackboard, remote, 5-15*

Blenders, small part, 1-94

Brazing, 1-78

Brister, C. W.
Selecting Metal Detector Systems, 2-69

Brown, L. M.
Electrohydraulic Forming, 1-150*

Business phone system, 6-10*

C

Cahill, R. F.
Developing Automated Production Systems, 3-70

Can-making processes, 1-150*

Capitalism, 2-60; 3-10*

Cartoning, prob., 3-4*

Chamberlain, R. G.
Lasers Upgrade Industrial Metrology, 5-161*

Change, how to manage, 5-84

Chewing gum products, 5-68

Circuits, fluid power, 1-75

Cleaning
aerosol cans, prob., 1-4*
beverage containers, 6-68

Cloth pattern making, 6-15*

College graduate market, 1-27*

Comella, T. M.
Capitalism's Eleventh Hour, 2-60

Communications,
experimental by lasers, 3-32*
government networks, 3-29*

CUMULATIVE EDITORIAL INDEX

Including July 1967 through December 1967. Number preceding hyphen is month of issue; those following are page numbers. AUTOMATION *is indexed in the Applied Science & Technology Index and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 313 N. First St., Ann Arbor, Mich.*

A

Actuators, process control, 9-74
Adaptive control, 8-77
Adhesives,
  application, 12-60
  bonding, 11-22*
  curing of, 11-22*
Adjustable speed drives, 10-78
Administrative control, 12-44
Air line lubricators, 8-86
Air nozzles, prob., 10-4*
Altland, G.
  Creating Basic Motions Hydraulically—Part 2, 7-80; Part 3, 9-64
Ansoff, H. I.
  Managerial Decision Making, 10-68
Applying adhesives, 12-60
Armington, R. Q.
  Transfer to Storage, 8-83
Assembly,
  adhesives, 11-22*
  machines, development of, 9-83
  micro-packaging, prob., 9-4*
  plastic bag, 8-15*
  plastic parts, 11-78
  ring tabs, prob., 7-4*
  ultrasonic, 11-78
Assistant editor appointed, 7-9*
Automated dairy, 12-15*
Automation,
  applying to material control, 11-100
  benefits of, 12-12*
  man's role, 12-23*
  management implications, 8-58
  manpower and education, 9-178*
  philosophy, 9-54
  planning, 12-20*
  selective, 7-65
  trade mission, 9-12*

sensing, 10-98
Tension control, electronic, 9-24*
Test facility, high voltage, 8-23*
Testing,
eddy current, 11-98
electrical equipment, 10-178*
heat exchangers, 10-23*
magnetic, 12-55
monitoring, 10-23*
nondestructive, 10-23*
rotating electrical equipment, 9-18*
rubber & elastomers, 10-24*
sonic, 8-15*
Three dimensional computer display, 11-30*
Time-based fluidic system, 12-74
Timer, reset, prob., 12-4*
Trade mission, Europe, 12-10*
Training for the future, 11-10*
Transfer
devices, intermachine, 10-74
to storage, 8-83
Trimming lead wires, prob., 10-4*; 11-4*
Troubleshooting, air line lubricators, 8-86

U

Uitrasonic
assembly, 11-78
cleaning, 7-71
wire cleaning transducer, 12-12*
volume measuring, 10-23*
Unemployment, 8-12*
Unionization, 10-10*
Update courses, 11-32*

V

Value engineering, 9-178*
conference proceedings, 10-178*
Valves, hydraulic, 7-80
Vanderlinde, D. C.
A User Looks at N/C, 8-68
Variable speed drive, 10-78
Vibratory feeders, applications, 7-86

W

Wage settlements, 9-12*
Walter, L.
Interconnecting Machines with Handling Devices, 10-74
Water purification process, 10-23*
Weighing, batch, 11-72
Welding, electron beam, 7-15*
Wick type lubricators, 8-86
Williams, G. N.
Applying Automatic Brazing and Soldering Techniques, 10-83
Williams, M. E.
Basic Information Retrieval Systems, 8-144*
Williams, S.
Business Process Modeling, 12-44
Willer, A. M.
Techniques for Controlling Temperature, 10-98
Wire
cutting, prob., 10-4*
forming, prob., 8-4*
Wiring equipment, prob., 11-4*
by N/C, prob., 12-4*
Wrapping steel, prob., 11-4*
